Details

Follows a young woman on her first country teaching appointment. The school's principal is a woman whose affection for the children and countryside has led to her acceptance of a solitary life in the town. A relationship grows between the two women and the gossiping eyes are quick to notice and suspect dangerous implications for the children. (Source: State Film and Video Library Catalogue S.A. 1982.)??Documentation relating to the production of the film is held in the NFSA collection
