Summary

The Australian Women’s Register has compiled information about women in environmental movement in Australia. A list of thirty women is available, many of them with links to fully developed biographical notes. Information about their activities beyond the environmental movement is also available.

It is expected that this number will increase with the completion of the Australian Women and Leadership project in 2012.

Users can access the information from browse lists accessible via the home page of the Australian Women’s Register, or through structured searches, also accessible via the home page.
